

SPRINGFIELD.

Report of the State Board of Charities Concerning the Incurably Insane.

About 3,000 Insane Persons in the State—2,400 Cases Incurable.

Increased Accommodations Needed—Asylums for the Incurables Not Desirable.

The Legislature Working No Great Benefit to Public Interests.

Careless Manner in Which the Statutes Are Revised.

Ex-Senator Dooley's Appeal in Behalf of Chicago University.

THE INCURABLY INSANE.

Special Dispatch to The Chicago Tribune.

REPORT OF MR. SECRETARY WENDELL.

SPRINGFIELD, Ill., Feb. 17.—The special report of the Board of Public Charities on the number and condition of the incurably insane in Illinois, which is appended, reveals a deplorable state of facts.

There are 300 insane in the State, of whom a great majority, probably four-fifths, are incurable.

The provisions for the incurably insane in the State at present are wholly inadequate.

There will be accommodations about 1,200.

When the Northern and Southern Hospitals shall have been completed, there will be accommodations for 500 additional, or 1,700 in all, leaving 1,200 still unprovided for.

IN THE COUNTY TALES AND ALMS-HOUSES of Illinois about 700 insane, of whom 450 are outside of Cook County, besides many others supported by the towns and counties, and by friends, outside of alms-houses. The condition of the insane in the county farms is represented by the Board as extremely unfortunate for the most part.

The Board opposes the building of asylums designed exclusively for the chronic cases. They urge upon the Legislature to make the entire system of the hospitals now building, and are of the opinion that

ADDITIONAL HOSPITAL ACCOMMODATIONS will be demanded by the people in the State in a short time.

The report was presented by, and is mainly the result of the investigation and work of, the Rev. Fred H. Wines, the competent Secretary of the Board.

FULL COPY OF THE REPORT:

Special Dispatch to The Chicago Tribune.

SPRINGFIELD, Ill., Feb. 17, 1874.

To the Hon. John W. Harris, President of the Senate:

Dear Sir:—I have the honor to submit herewith, a copy of the report of the Board of Public Charities, for your consideration.

Very truly yours, J. A. Dooley.

Received, This the State Board of Charities, March 1, 1874.

Dear Sir:—I have the honor to report to the Senate whether they cannot derive some plan and some place in the many insane-asylums in the State, for the accommodation of the insane, and could not without cost or charge to relatives or friends; and that the Secretary of State furnished the Chairman of said Board with a copy of this report.

A complete reply to the foregoing will be made in the course of the session.

Very truly yours, J. A. Dooley.

FUSCUS.

The farmers enjoyed themselves this morning, and were eloquent on the subject of fences. The hill, or rather, the great mass of fence posts, is a 4-foot fence, but yesterday the House increased the altitude to 45 feet. This morning the 4-foot fence was raised, and reconsidered the half-foot, leaving the height of the fence at 45 feet. The House then voted to disown the 45 feet, and the bill was referred to the court of common pleas for further consideration.

All the bill is called to the master in all kinds, and no doubt the Committee will be proud to have their work finished in a manner that will reflect honor on each and all of them. As the Repealing bill stands now, the revision will reflect honor on no one.

THE REVENGE LAW.

Special Dispatch to The Chicago Tribune.

AMENDMENTS PROPOSED.

SPRINGFIELD, Ill., Feb. 17.—The whole afternoon session of the House was taken up to-day in discussing two bills of abatement of the general revenue law. The bill introduced by Mr. Director proposes to amend by allowing a deduction from the gross amount of debts for a consideration, and so much of any liability assumed for others shall be deducted as listing personal property as a deduction.

The consequences of passing this Repealing bill with all its errors will cause endless litigation. If the errors are not acted, there will be no relief with the bill as it stands, and this is the only bill of this kind of rushing through revision bills at a gallop, and especially the Repealing bill, which may pass.

All the bill is called to the master in all kinds, and no doubt the Committee will be proud to have their work finished in a manner that will reflect honor on each and all of them. As the Repealing bill stands now, the revision will reflect honor on no one.

THE OAKWOOD BILL.

which was also under consideration, proposes to allow deductions for indebtedness incurred in the purchase of real estate, or indebtedness derived from the same.

Mr. Director arrived this morning, accompanied by a petition signed by Scandinavians, asking Congress to raise the Swedes' mission to the rank of first class. What this Legislature has done is to make the Swedes' mission to the rank of third, what is the total amount of the provision already made in Illinois for the Swedes' mission? I am sure it is not \$100,000. The bill will be seen that, in accordance with the desire of the Governor, the Hon. John F. Palmer, the bill will be referred to the Committee on Foreign Affairs, and then a committee will be appointed from each of them of members of the Legislature and the Legislature to its legislative business.

THE CRIMINAL CODE.

came up on its final passage in the Senate. Hinsdale will be referred to the Repealing Committee, with instructions to strike out the entire provision, and to report a bill to the Senate.

Mr. Director will be referred to the Senate.

THE ACCORDING TO THE THIRTY-SIXTH ITEM.

which is also under consideration, may be deducted from the gross amount of debts for a consideration, and so much of any liability assumed for others shall be deducted as listing personal property as a deduction.

The consequences of passing this Repealing bill with all its errors will cause endless litigation. If the errors are not acted, there will be no relief with the bill as it stands, and this is the only bill of this kind of rushing through revision bills at a gallop, and especially the Repealing bill, which may pass.

All the bill is called to the master in all kinds, and no doubt the Committee will be proud to have their work finished in a manner that will reflect honor on each and all of them. As the Repealing bill stands now, the revision will reflect honor on no one.

THE COMMISSIONERS OF INDIAN CLAIMS.

in the ninth century of the United States, for the most part, the number of Indians was estimated at 2,000,000. But this figure (1,000) is very much to low, as has been fully demonstrated by the special Agent of the Indian Commission in 1860, and served to a final revision and completion in 1870. By reference to the report of the Commissioner of Indian Affairs, it is shown that the number of Indians in the State of Illinois is 1,700, for whom further provision, if any, is to be made, is called to the master in all kinds, and no doubt the Committee will be proud to have their work finished in a manner that will reflect honor on each and all of them. As the Repealing bill stands now, the revision will reflect honor on no one.

THE COMMISSIONERS OF INDIAN CLAIMS.

which is also under consideration, is the same as the bill of the 18th, and was referred to the Senate.

Mr. Director arrived this morning, accompanied by a petition signed by Scandinavians, asking Congress to raise the Swedes' mission to the rank of first class. What this Legislature has done is to make the Swedes' mission to the rank of third, what is the total amount of the provision already made in Illinois for the Swedes' mission? I am sure it is not \$100,000. The bill will be seen that, in accordance with the desire of the Governor, the Hon. John F. Palmer, the bill will be referred to the Committee on Foreign Affairs, and the Legislature to its legislative business.

THE COMMISSIONERS OF INDIAN

MONEY AND COMMERCE.

MONETARY.

TUESDAY EVENING, Feb. 17.

There are no new features in the money market. The supply of loanable funds continues not only abundant, but superabundant. It is not only the general impression that when the importers of wheat, cotton, tobacco, wheat, corn, and other products are sold to Eastern and foreign consumers, as the great bulk must be in the next two months, there will be an unusual plenty of money in the West.

New York exchange was a little firmer to-day, and sold between banks at 50¢ and at 50¢ per \$1,000 discount.

POPULAR FINANCIAL DEFINITIONS.

We are accustomed to call this an "age of progress," and to foster ourselves that in the United States are in the advance ranks of the army of progress; but we when we read such resolutions as that passed by the farmers in convention at Earville, in this State, on the 14th, to the effect that "gold and silver are not money," but that "money" consists only in "stamps" of the Government, "then we are compelled to pay gold, or anything else," we begin to think that the progress of "progress" is only in the direction of such popular hallucinations as Communism and its inevitable result of anarchy. When the great mass of uneducated minds composing "the people" are concentrated too intently upon such absurd questions as the ratio of exchange, the standard of value of money, the standard of value of money, the standard of value in currency, etc., it generally results in popular insanity. The farmers of Earville would doubtless soon be classed with the fanatics of the League of the Sainte-Croix, and yet the hallucinations of the latter are not nearly so devoid of all reason, nor half so dangerous, as those of the Earville farmers.

THE LAW OF 1870, which provided for an increase of \$24,000,000 of National Bank circulation, also said that when the \$4,000,000 had been issued, \$25,000,000 more should be taken from the National Banks in Eastern States, which had an excess of circulation, and that this \$25,000,000 should be distributed among new banks in the West and South, as called for. This \$4,000,000 has, for some time past, been taken from the South. Senator Sherman has, therefore, introduced his \$25,000,000 redistribution bill to the house of representatives without waiting for the complete issue of the \$25,000,000. This is a foolish one, but it would greatly disturb the affairs of the Eastern National Banks to be obliged to surrender \$25,000,000 of their circulation and sell about \$26,000,000 of their bonds deposited in the only good of the nation is that it makes the Eastern National Banks willing to advocate

ORGANIZING.

The Workingmen Emulating the Farmers.

They Are Forming Their Special Organizations Everywhere.

Creation of the "Advocates of Justice" in Chicago.

Ends and Aims of the Order. Interview with Mrs. Wynkoop.

Objects of the Sovereigns of Industry.

Talk with Mr. Earle, the Grand Master.

He Tells How the Order is Spreading Over the Country.

It Meets with the Cordial Cooperation of the Grangers.

The Mechanics' and Workingmen's Cooperative Association of New Orleans.

The spirit of Grangerism, Workingmenism, Communism, Grievousism, or whatever name the present fever among those who assume to themselves the title of "the industrial and producing classes" may be termed, appears to be growing space throughout the United States.

The Grangers are now, comparatively speaking, an old institution, and have lost some of that mysterious terror with which their earlier operations caused them to be regarded. That they are an established fact nobody cares to deny, and if anybody felt so contradictorily disposed the public could not be expected to share the skepticism.

The Workingmen have also had their "flare-up," and the redoubtable Hoffman Jester was whistled to prominence by some of their local demonstrations, but, beyond the sudden and awful elevation of the said Hoffman, and his equally shrill and terrible fall from the steeps of ephemeral fame, it is to be doubted whether the movement has itself never felt in this community.

THE ADVOCATES OF JUSTICE.

Another Chicago, never before in any way of extorting, has made a new departure, and commenced the organization of a body of malcontents called "Advocates of Justice," who are to be the guardians of those in this city who inherit the curse of Adam, and earn their subsistence in the sweat of their brows.

THE MOUNTAIN-HEAD.

of this new semi-socialistic and semi-democratic machine is at the residence of the talented Mrs. Wynkoop, 1008 Lake street, in the center of the business world. In the cause of hard-working humanity is Mrs. Pierian, of the "Western Era," a genial person in whose breast the laicist fluid of human kindness has been distilled.

Several letters bearing on the condition of the working-classes of Chicago and elsewhere have appeared in *The Tribune* from the pen of Mrs. Wynkoop and others. The general tenor of these letters is that the working-classes are deprived of Granger privileges, and that, while the farmers of the country have, in some measure, successfully combined to protect their own, the great industrial classes have failed to do so, and that this was likely to grow popular, to advance their cause in a social or martyric sense.

SO THE HAPPE IDEA.

Reporter—You have been to St. Louis and some other places.

How is your organization prospering?

asked the reporter. Now, I suppose I'll have to submit to an interview? That is the usual way in which Chicagoans learn of the presence of outsiders.

Mr. Earle—Yes, I have consulted Mr. Phillips in this matter.

The reporter then asked whether he had any news to report as something to set ridiculous. But there are at least several dozen theories about justice, and these assume shapes according to the circumstances surrounding the individual, and the particular case in which he is involved.

Mr. Earle—No news, I am afraid. I'll just write you out of my notebook.

Mrs. Pierian, Powers Austin, DeWolf, and Mrs. Wynkoop were also on the list.

WAY CHANG.

Reporter—What is the reason that you are not going to adhere to that organization?

Mrs. Wynkoop—Well, we should be giving a local aspect to this matter, which we do not wish to do. We want it to become national, but to have this the fountainhead. Before, we can fully organize, we are scattered, and we will not be able to do so. You see how foolish it would be for us not to give the Council a country as well as a metropolitan representation?

At this point the parlor door opened, and an elderly man, with a white head, good features, and an intelligent expression of countenance entered. This the reporter took for granted must be Mr. Wynkoop, for he assumed a seat with a smile.

MR. WYNKOOP SPEAKS.

The new-comer, on being informed of what was going on, said:

"It is in the working of the kind that we do. It is a man's work, not for us, but it is. Things are going from bad to worse in the United States. Early in the winter I was afraid of a bloody revolution."

Mr. Wynkoop intimated to the reporter that the "Advocates of Justice" were generally opposed to the shedding of human gore; that their mission would be glory to God in the highest, and on earth peace to men of good will, or something to that effect.

NO WOMAN SUFFRAGE.

The reporter ventured to inquire—Has this anything to do with the Woman Suffrage Movement?

Mr. Earle—Very satisfactory, very friendly, indeed. Why, at St. Louis I attended and addressed a convention of workingmen—men—conventions of representatives such as the "Workingmen's Association" in "Sub-Sections."

THE WORKERS' ORGANIZATION.

Reporter—What are your relations to the Workingmen's Organization?

Mr. Earle—Very satisfactory, very friendly, indeed. Why, at St. Louis I attended and addressed a convention of workingmen—men—conventions of representatives such as the "Workingmen's Association" in "Sub-Sections."
